

Action Plan: solo5estrellas.com

Critical > High > Medium > Low. Each item states the evidence it rests on and the check that would show it failed.

#	Priority	Action	Evidence	Done when (falsifiable check)	Effort
1	Critical	Fix head template: close meta title quote, repair hreflang es tag	289/300 hotel pages, all collections/cities/chains	A crawl finds a meta description on 100% of pages; URL Inspection shows the description	S
2	Critical	Self-referencing canonical on all templates	0/399 pages; GSC 492 duplicates	Canonical present on 100%; GSC duplicate flag falls	S
3	Critical	One slug per hotel ID, 301 variants, 404 unknown IDs	3,080/3,235 IDs with 2 variants; GSC 81 IDs	Crawl finds 1 URL per ID	M
4	Critical	301 legacy browse_*.cfm?id URLs; rebuild Turks & Caicos hub	29 of 124 clicks on countryid=64	Legacy URLs return 301; clicks on Turks & Caicos queries rise	M
5	High	Segmented sitemap index and Sitemap: in robots.txt	14 URLs; 5,221 not indexed	Submitted vs indexed by type in GSC	M
6	High	Spanish title and description templates; translate English titles; fix 'Exclusive'	67/68 titles; 7 'Bienvenido'	0 duplicate or English titles in crawl	S
7	High	Fix encoding of JSON-LD text; add Hotel schema; rebuild Organization graph	206 pages with U+FFFD	Rich Results Test clean; no U+FFFD in crawl	M
8	High	Reciprocal es/en hreflang with WhataHotel	0 self-referencing es tags	hreflang validator: 0 errors	M
9	High	Hotel template: contextual links, breadcrumbs, server-rendered hero image with alt	43 links, 1 img per hotel page	Crawl shows breadcrumbs and 3+ contextual links	M
10	High	Thin hotel pages: expert text or noindex	94/300 under 300 words	No indexable page under 300 words	M
11	Medium	Cache city pages; headers (HSTS, cache); session cookies	2.5 s TTFB; no cache headers	City TTFB under 0.8 s	M
12	Medium	Confirm robots-blocked URLs in GSC	1,646 pages	Examples are /booking/ only	S
13	Low	Optional lms.txt	404	Not needed for Google; optional	S
